Body 2	bicubik	Regular	12	Uppercase	0.25
Button	bicubik	Regular	14	Uppercase	1.25
Caption	bicubik	Regular	12	Uppercase	0.4
Overline	bicubik	Regular	10	uppercase	1.5

-Is it going to be different or the same for every scale categories?

- The same for everything in both typographies.

-Which properties is it going to have? Describe them.

- Tomorrow: Tomorrow is a geometric family ranging from a neutral Thin weight to a vibrant contrast-based Black. It is an excellent fit for small sizes and big headlines. Easy to read and hard to forget. The Tomorrow project is led by [Just in Type](#), a type design foundry based in Brazil.

- Bicubik: Bicubik is a trademark of Anton Kudin and his subfamily is Regular, all written with this font I in uppercase.
